

Women's group in Uganda

## Our mission:

We specialize in providing education and training to marginalized communities to enable their empowerment. Marginalized communities lack the resources, the skills and the necessary education to make their voice heard. We believe that by providing them with quality education and training, vulnerable communities can be empowered, can come out of extreme poverty and can demand that their rights be respected.

# Empowering marginalized communities

## Our work in Luxembourg:

- to facilitate the integration of asylum seekers and refugees;
- to raise students' awareness of human rights and offer them concrete volunteering opportunities.

Integration project in Luxembourg

Our work with the poorest communities in Africa:

- construction of pit latrines to stop open defecation and reduce communicable diseases;
- support to maternal and infant health care in rural communities;
- provision of primary health care to out-of-reach rural villages;
- provision of sanitary towels for rural girls;
- literacy, savings and food security programs for rural women;
- schooling and professional training in marginalized communities;
- human rights training and promotion among vulnerable communities.
